## SOLAR REFERRAL PROGRAM

### “EASY & EXCITING WAY TO EARN SOME EXTRA MONEY”

**How?** Simple, you as a solar owner or even if you are not a solar owner yet, have family, friends, neighbors or business associates that may be interested in solar you can help them on their solar journey. Solar is a ‘sensible’ way to gain energy independence. We are local and a preferred partner with many of the nation’s top solar providers.

**Easy next step.** Give them our company contact information at bottom of page or contact us with their name so we can connect you to them. We will contact them by phone or text. We coordinate a time to present our amazing programs in the privacy of their home. When they sign up for installation your name is registered as the one who referred.

**Solar meeting.** If you wish to organize a group of people we are happy to do a presentation. At this meeting we can start the signup process for any who are interested.

**The referral bonus.** Approximately one month after a referral’s installation a Visa gift card of \$200 is issued to you for those you referred. Sweet!

**Confidentiality.** As each home has different energy usage, cost of systems can vary even for similar square footage, we simply ask you to keep confidential your deal as we keep theirs confidential.

#### **My personal goal is to be honest.**

Solar is a sensible hedge against the ever-increasing electric rates and a ‘sensible’ way to gain energy independence we present this combined with ‘the numbers’ at their meeting.

**Guarantee.** A custom program complete with a personalized energy analysis & proposal.

I am not a ‘salesman’ but company owner & energy specialist with nationwide solar certification

**Solar owners tell us unequivocally, “We love our solar” and “Solar is saving us money”**

**One solar owner jokingly told me “You’re crazy if you don’t have solar in Arizona”.**

I was really impressed with this company, was so great at explaining everything I needed to know about solar. They are clearly taking steps to make sure their representatives are well informed. I like that they were patient with me and willing to go the extra mile.

I had solar at a home where I lived in the past. I was interested in looking for solar at my new home, helped me get a system for much less money than what I paid before! I have already recommended 3 others.

## Luke Lake
