

# SENSIBLE SOLAR AZ™ SUN CITY SOLAR AZ™

Sensible Solar Az  
Business ID: 1000036348  
BBB Rating: A+

## WHAT IS A FAMILY SOLAR MEETING ?

Solar enhances the lives of every homeowner providing stable, low-cost electricity, a predictable monthly bill, rate increase protection, equity value increase, and the satisfaction of contributing to a cleaner environment.

Going solar is great decision hundreds of thousands of homeowners in Arizona have gone solar.

However, sometimes input from family members, guardians or even friends input are important in a decision to investigate solar more deeply.

We recognize for some people that going solar can be confusing, and further recognize that people may have important generalized questions and seniors age-related questions.

We are happy to address these and every concern. Our oldest customer is 103 years old!

## We encounter situations when a son, daughter, or friends advise not to get solar.

In most cases family members or guardians are just trying to protect and have no bad motive.

However, when we delve deeper we frequently discover they have little or no knowledge of the programs we are offering and in many cases get bad information from the internet. Sometimes they relate a story of someone who had a bad solar experience. When we delve deeper into these, we discover many times they have an older system or never had enough solar installed.

Our company avoids this due to our professional installation process and a rock solid 25-year warranty. Our solar installer partner has an A+ BBB™ rating and top Google™ ratings.

## In these situations of confusion or doubt, we suggest our family meeting.

At this free and no-obligation Discovery meeting we present the complete details of a customized program with a Solar Savings Report created specifically for you.

Simply let us know who you would like to be present and we coordinate all details.

We are happy to have any family member, guardian or friend at the appointment; or if they cannot be there, talk by phone. We happily address doubts or questions with current accurate information to dispel any misinformation on the Internet and 'biased sources' discrediting solar.
